

AN ENDURING WEATHERBOARD FOR BEACH HOUSES, HAMPTONS HOMES, COUNTRY COTTAGES AND MODERN MASTERPIECES.

With Scyon™ Linea™ weatherboards your home can have the distinctive charm of a traditional thick timber weatherboard without the frequent repainting required.

Unfortunately, when moisture finds its way into timber, this exposes it to a never-ending cycle of shrinking and swelling due to heat and rain. As a result, paint deterioration is accelerated by the instability of the board under the paint. So painting is required more often and this effectively rules out use of dark colours on timber.

Unlike traditional timber, fibre cement weatherboards are stable. Linea weatherboards will maintain their integrity and appearance significantly longer than timber. Even when moisture gets in, Linea weatherboards resist swelling, shrinking and cracking to hold paint longer. So you can pick dark modern paint colours with confidence.

Linea Weatherboard 150mm

Linea Weatherboard 180mm

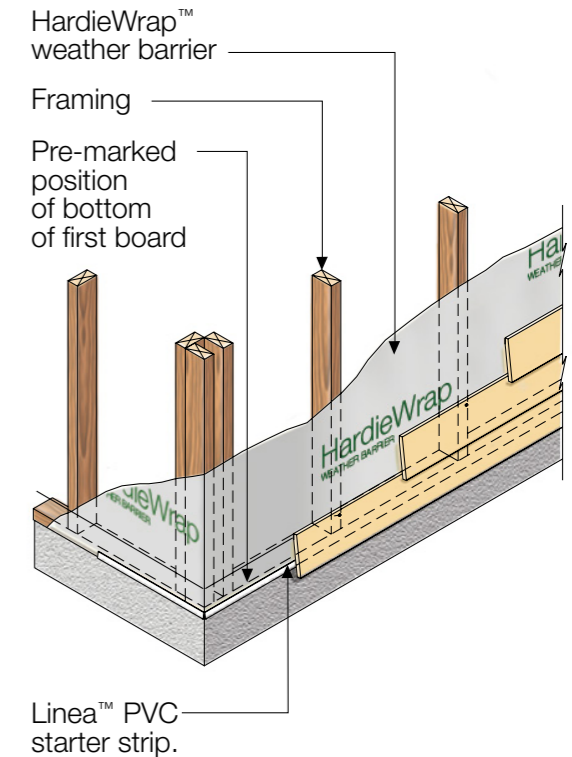

Linea™ Weatherboard Range

Features and Benefits

- 16mm thick. The thickest fibre cement weatherboards for the deepest shadow lines.
- Resistant to shrinking and swelling to hold paint longer and reduce the frequency of repainting.
- A stable building material so you can paint it dark colours.
- A smooth texture and crisp clean shadow lines.
- Gun nail with 40mm minimum length nails for fast construction.
- Cuts cleanly without splintering with a fibre cement blade on a circular saw.
- Boards are back beveled to sit flush with timber or light gauge steel frames.
- Tongue and groove ends so there's no need for an unsightly jointer.
- Internal corner, external corner and window adaptor accessories for fast construction.
- Pre-primed to reduce painting costs.
- Resists damage from shrinking, swelling, cracking, rot, moisture and termites when installed and maintained correctly.
- BAL Rating up to BAL 40 for bushfire prone areas.
- Made in Australia for Australian conditions.
- Read the installation guide before commencing work, and for more information on flashing, framing, fixing, details, warranties, warnings and safe work practices.
